Dear Mr. Ashcroft,

We are writing about the Microsoft case. This issue has been going on far too long. Microsoft is a good innovative company which is being hurt because of, among other things, the amount of company resources required in this seemingly endless effort. Please do your best to uphold the settlement and ensure the end of this mess.

The settlement is fair, calling for more sharing of technology secrets among competitors and easier access to non-Microsoft programs in the Windows operating system. These will ensure that there is fair competition in the technology industry, which was the main issue of this lawsuit. Please respect the proposed settlement; it is in the best interest of everyone involved.

Sincerely,

Robert A. & Elayne B. Bressler
